RESPONSIBLE USE OF RESOURCES AND NATURE

Establecimiento Olivum protects the environment, focusing on the responsible use of water, air and electricity, using fertilizers and agricultural inputs in an efficient and responsible way, and trying to managing the waste looking forward to reduce its environmental impact. Furthermore, our focus is on generating a positive impact on the environment and climate and protecting biodiversity.

RESPECT, ETHICS AND EQUALITY

We follow legal and ethical standards. We also respect labor laws and the integrity of every employee. We promote gender equality and we have opened communication's channels.

COMMITMENT TO QUALITY

We use the latest technology to produce a premium olive oil that meets all nutritional requirements and achieves the highest quality.

We get our premium olive oil through a standardized process, guaranteeing a safety and qualified product, ensuring traceability at every stage of the production.

We have our own laboratory for analyzing our oils, ensuring in this way the chemical and sensorial quality of our products.

We also work with external laboratories accredited by the "Organismo Argentino de Acreditación", that maintain high quality standards.

Our participation in international olive oil competitions and our constant internal and external audits confirm our commitment to quality.
